**What's new in Demolish Amp; Build 2017:**

Demolish & Build 2017 was an annual event for repair and conservation of historic buildings in Calgary. The event is hosted by the Historic Calgary, Alberta Cultural Resources Commission and Big City Adventures in partnership with the City of Calgary, Calgary Economic Development, and private and community partners. Demolish & Build Calgary takes place at the many historic buildings and structures and conserves and restores the buildings so that they can be reused by the community. Previous Demolish and Build events have been held at the Calgary Tower, Calgary Tower Centre, Calgary Conservatory and St. Thomas Anglican Church. History The first Demolish & Build event was held in 2011 at St. Thomas Anglican Church after more than a decade of activity by The Friends of St. Thomas Heritage Buildings. The 2011 event attracted more than 1,000 attendees to a two-day event where 156 buildings in the vibrant St. Thomas' urban village area were either conserved, restored, or condemned. The success of this event led to the creation of the Historic Calgary - Alberta Cultural Resources Commission. The Historic Calgary began organizing Demolish & Build in 2012. In 2013, the event was held at the historic Calgary Tower. Eight buildings, some beautiful and some not, were chosen for this year's event. The event again attracted 1,000 people to the event. In 2014, the event was held at the Calgary Tower Centre. Thirteen buildings were chosen for the weekend of celebrations. The community helped pick this year's buildings and helped staff the weekend. The first women's conference on heritage was also held in conjunction with the event. In early 2015, Big City Adventures decided to partner with the Historic Calgary to increase the number of buildings chosen for the event. Thus, the decision was made by the city and county to once again host Demolish & Build in 2017 at the historic St. Thomas Anglican Church. In 2016, the City of Calgary, Alberta Cultural Resources Commission and the local communities worked together to bring back the annual heritage event at the historic Calgary Tower. After many months of preparation, demolition began on April 6 and the 40-day project officially finished on June 26, 2016. On July 28, 2016, the event was staged on the second, top level of the Calgary Tower for the second time. Many buildings were successfully restored on this level for the first time. Participants filled 12
